Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and no matter in what part of the paper they appear.

Printers, like other people, have to eat sometimes. That is, if they can get the material. But they can't get the material without money—unless someone gives it to them. Now, if you owe this Printer, he will gladly accept a few country hams, a bushel or two of potatoes, or most any old thing that comes from the farm—and will give full credit at market prices. See?

We All Know

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. If you have a dull pain about the eyeball, or if, when reading, the letters seem to run together, call and be relieved. We charge nothing for examination, and guarantee satisfaction in every case.

NEWSY NOTES FROM NATURE'S GREAT HIGHWAY.

The Fred Wilson passed down yesterday with a tow of Pittsburgh coal for New Orleans.

The Belle McDowen, Ed. Roberts, Charles Clarke and Rescue passed up Pittsburgh with empties.

The repairs to the Keystone State will probably be completed in time for her to leave Pittsburgh next week on her regular day.

There are fully 10,000 idle miners in the Pittsburgh district, the majority of them being on a strike for the terms of the Chicago agreement.

The Pittsburgh Steamboat Inspectors received notice from Washington that all boats must be equipped with bells, and that, when tied up during a fog, the bells must be sounded once every minute, one tap being given if the boat is on the right bank and two if she is on the left bank. For failure to observe this rule the owner of an offending steamer is liable to a fine not exceeding \$50.

The Pittsburgh coal operators will deliver free of charge provisions, fuel and everything that may be contributed to the food sufferers at Shawneetown, Ill. Captain S. L. Wood is willing to hitch any kind of craft to his coalboats and deliver it to the stricken people. If fuel is needed by the sufferers he will contribute his share, and, although he did not speak for the balance of the operators, he was confident that they would do likewise.

MATTINGS.

The time has come to take up the old carpets—dusty, stale and worn with use—and substitute neat, cool and pretty Mattings. Humbug is rampant in Straw Mattings. The market is full of Mattings that are hardly worth the tacks and trouble necessary to put them down. Against such stuff and the humbug methods employed for its sale we put a regular, carefully-selected stock at prices so low true and honest competition cannot meet them.

AS AN INDUCEMENT,

To visit our Matting Department, which will afford the surest confirmation of our claim to the best selected stock of Mattings in Maysville, we offer genuine, serviceable Shin King Matting in Oriental effects and designs for 11c. yard Friday and Saturday. Not our fault if you arrive too late. This bargain is too real to last long and in your appreciation of it don't fail to count the fact the Tariff will make all Mattings higher priced next season. More elaborate Mattings in all colors and at all prices.

"The best way to get rid of a bad law is to enforce it."—General Grant.

In 1861 the fellows who shouted the loudest and the longest for war were the very fellows who didn't get a gun when the time for shooting came. It will be pretty much that way in 1898, if war should unfortunately be forced upon us.

HAWAII will not be considered neutral ground by the United States in event of war, but will be used as a depot for Naval supplies. After awhile, maybe, there are people who may be convinced that Hawaii ought to be annexed and become a part of the United States.

The real Republican leaders of Cincinnati were "turned down" by the "Goody-goody" last fall, and the result is read in the success of the Democratic ticket in that city Monday. A Cincinnati Republican "reformer" is altogether too pure for this latitude. He ought to go to Klamath.

AUDITOR SAMUEL H. STONE is reported to have launched his candidacy for the Republican gubernatorial nomination while attending the launching of the battle-ships at Newport News. THE LEDGER launched Colonel STONE's candidacy nearly two years ago, but somehow or another it hung fire.

It goes without saying that the recent cold snap killed all the fruit, that the clover and the wheat are ruined, that the flowers will not bloom this spring, and that the very old Harry is to pay generally.

In view of these croaks it is thought that peaches will be only six-fifths of a crop.

That a great deal of applejack will occur;

That grapes will grow on vines;

That all the clover will be eaten by horses and cattle;

That if \$1 25-a-bushel wheat will part company with 64-cent-an-ounce silver—

And that the unhappy Populist will be unhappy still.

American farmers have produced during the past forty years 934,000,000,000 bushels of wheat, valued at \$25,000,000,000. There are 1,000,000 acres of wheat in the world or one to every 150 inhabitants. In England there are 25,000,000 acres, or 870 for each million inhabitants. In Russia and Egypt the wheat constitutes the largest proportionate number of the population.

"A word to the wise is sufficient," and a word from the wise should be sufficient; but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elton, Ky., for twenty years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people and is the best. The Osage Indians are the richest community in the world. They number but 1,728 souls, all told—men, women and children; they own 1,500,000 acres of valuable land; have \$9,000,000 in trust with the Government, which pays 5 per cent. interest, and have leases with cattlemen for the use of their pasture lands which bring them between \$40,000 and \$50,000 a year, without counting the rent from the agricultural lands and the proceeds from their own labor. They have so much money that they are lazy, idle and in a state of rapid degeneration.

Owing to continued rains, with a late spell of frost, followed by the present cold snap with snow, the farmers are considerably hindered in carrying out their plans for an extensive crop, especially of tobacco. Besides, the work already done in the way of plant beds and plowing is threatened with much damage. Some beds of plants are already reported as killed.

We were pretty well convinced that the fruit crop would be abundant this year and claimed, in spite of the many prophecies of late winter, that there was no winter that we had heard of read of that had been stored up for distribution; but the present spell of March lingering

In the lap of April has completely upset our calculation, and we now think it is a "dog-gone slim chance" for peaches, pears and other early blooming fruit to survive, notwithstanding the bloom came out in the light of the moon. However, it may be a reminder that all signs are liable to fail occasionally.

WALSH—RUDY.

Mr. Harry L. Walsh and Miss Bessie Rudy Married Yesterday Afternoon.

Yesterday afternoon at 3 o'clock Mr. Harry L. Walsh and Miss Bessie Rudy were united in marriage by Rev. F. W. Harp in a very solemn and impressive ceremony done in the Reverend Divine's most happy style.

The families and a few intimate friends were present to witness the event, and it was a sight commingling the solemnly sweet and the realistically beautiful, so that the happy young couple were united for life there appeared visible to the mind's eye a future freighted with long years, great happiness, plentiful riches, abundant success and a closing scene of great joy, even extending into the great beyond if they walk as faithful servants during their mortal existence.

The mind of the writer does not revert to the time when he faced a prettier bride, a beautiful girl just budding into the state of womanhood, endowed with traits of heart and mental accomplishments which make her equally well poised in soul, body and spirit. She is the only daughter of Mr. and Mrs. Byron Rudy, and as she stood to make answer to the questions which changed her relations henceforth her loveliness was intensified because the rose in dignity and womanly mind to respond to the all important interrogatories. She was dressed in an exquisite Yale gray cloth, most artistic in fit and simplicity in its simplicity, hat, gloves and flowers to match.

The groom is the eldest son of Mr. and Mrs. John Walsh. He is 23 years old and is one of our worthy young men of whom it is a joy to speak complimentary things, for he is energetic, frugal, and his fair to be numbered among our successful men in future years.

Mr. and Mrs. Walsh were remembered by their many friends in a lavish manner. The presents displayed were useful, valuable and in kind such as to furnish a cozy home from kitchen to parlor.

They have gone to Chicago for a week's visit to an uncle of the groom. Upon their return they will go to housekeeping in the old Rudy home in the West End.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in The Worcester Enterprise recently, which leads me to write this. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from one drop to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75 cents.
